

## Advocate Partner!

Georgia Transmission Corporation (GTC) is a not-for-profit electric cooperative that plans, builds and maintains more than 3,000 miles of high-voltage power lines for 38 member-owned Electric Membership Cooperatives (EMCs) in local communities – providing safe, secure, reliable and affordable energy in order to keep the lights on for 4.1 million Georgians every day. GTC is our original Advocate Partner, working hand-in-hand with Tucker Middle School staff and students, contributing to curriculum design, designing and funding field trips for both students and teachers, and personalized training at both the student and teacher level. GTC has provided our TMS STEM Program with a substantial amount of funding. Additionally, GTC have provided our teachers the opportunity for paid-externships during the Summer.
