

Advocate Partner!

Northrop Grumman Corporation (NGC) is an American global aerospace and defense technology company. With 90,000 employees and an annual revenue in excess of \$30 billion, it is one of the world's largest weapons manufacturers and military technology providers. In collaboration with Science ATL, Northrop Grumman has hosted our STEM Cohort 8th Grade girls for a Women in STEM event where students spoke with C-level leaders about how to lead in a male-dominated field. NGC has supported TMS STEM through grants, including a \$5,000 robotics grant! They've also supported us through program offerings, field trips, and lesson design. NGC was integral in helping TMS host STEM CON, as part of the ATL Science Festival, where we hosted over 300 students!
