

Advocate Partner!

Science ATL brings people together through the wonder of science. Their mission is to cultivate an equitable community of lifelong learners across metro Atlanta who are connected and inspired by the wonder of science. In collaboration with Northrop Grumman, Science ATL was integral in helping TMS host STEM CON, as part of the ATL Science Festival, where we hosted over 300 students!

Additionally, Science ATL has provided multi-year support by cultivating real-world and real-work experiences for many of our STEM students through the Chief Science Officer Program. One of our STEM students even flew to Washington, D.C. to represent us in our Nation's Capital!
